

2020 MBP Committee Report

Darin Lackey

Not a lot of detail to report. The committee did vote to re-open enrollment in the OkACTE/CCOSA Mutual Benefit Plan. This will be a good opportunity for members to get enrolled if you are not currently a member. Cost is \$40/member and \$40/spouse of member initially and then \$10 to be paid by each member in the event of the death of an MBP member. There is currently an average payout of approximately \$12,000 payout to the family of a lost member in the event of their death. This is extremely helpful to families especially as this is paid immediately upon the notice of the member's death. There is no long waiting period.
