

Business, Marketing & Information Technology Education Division
2020 CareerTech Summer Summit

REPORTER UPDATE

We continue to use the <http://bmite.org> website as an informational website and library for resources for our membership and officers. The most recent information for summer conference is listed under the Summit 2020 Page from the menu.

Since the conference is virtual. I encourage our membership to send in photos of experiences from the Oklahoma Summit 2020 event. As well, we encourage our membership to utilize this page and platform to share news, events, and other activities from the around the state. We're a big state, spread out and we want to make sure we employ this resources to bind and connect our membership and to spread best practices to others across the state.

Respectfully Submitted,

Daniel Devers
